Bucketing: Getting Ready to Write

Look over all the documents and organize them into your final buckets. You will categorize your buckets by what documents or pieces of the document are inside each bucket. Write your final bucket labels on each bucket and place the letters of the documents in the buckets where they belong. It is ok to put a document in more than one bucket. Be sure you have evidence in each bucket as they are going to become your body paragraphs.

Chicken Foot

On the chicken foot below write your **thesis** and your road map. Your thesis is always an opinion and answers the DBQ. The road map is created from your bucket labels or now '**claims**' and lists the topic areas you will examine in order to prove your thesis.
